

## Phospho-FAK (Tyr925) Rabbit Polyclonal Antibody

# Catalog #: EAB10156

Host/Isotype	Clonality	Applications	MW (kDa)	Reactivity
Rabbit IgG	Polyclonal	WB, IHC-P, IF, ELISA	119	Human, Mouse, Rat

#### **Applications Dilutions**

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

C-P(Immunohistochemistry-Paraffin) 1:50-3	300
Immunofluorescence) 1:50-3	300
ISA(Enzyme-linked Immunosorbent Assay) 1:500	0-20000

#### **Product Information**

SpecificityPhospho-FAK (Tyr925) Rabbit Polyclonal Antibody detects endogenous levels of FAK only when phosphorylated at Tyr925.PurificationAffinity purificationConcentrationImg/mlFormatLiquidFormulationIn PBS, pH 7.4, Containing 0.02% sodium azide, 0.5% BSA and 50% GlycerolShippingGel PackStorageStore at -20°C least 1 year from the date of shipment. ### **Product Description**

This gene encodes a cytoplasmic protein tyrosine kinase which is found concentrated in the focal adhesions that form between cells growing in the presence of extracellular matrix constituents. The encoded protein is a member of the FAK subfamily of protein tyrosine kinases but lacks significant sequence similarity to kinases from other subfamilies. Activation of this gene may be an important early step in cell growth and intracellular signal transduction pathways triggered in response to certain neural peptides or to cell interactions with the extracellular matrix. Several transcript variants encoding different isoforms have been found for this gene.

For Reserch Use Only. Not For Use In Diagnostic Procedures
